Have You Got The Hump?

Many Ickleford residents are unhappy about the decision to install speed-humps/cushions throughout the village. Whilst we endorse a safe environment for children and residents, we are not convinced this is best way to address the problem. We are concerned that a mile of these humps/cushions through the village will spoil the unique character of Ickleford, have a negative impact on our local businesses and cause increased wear and tear on our vehicles.

We want to assess the depth of feeling in the village. IF YOU ARE AGAINST THE INTRODUCTION OF THE HUMPS/CUSHIONS, PLEASE TELL US SO BY COMPLETING THE FORM. (We should say that we support speed humps to calm traffic on the approaches to the pedestrian crossing if strictly necessary.)

Once we identify the number of residents who are against the humps we will determine the next steps and keep you informed. This data will not be sold or used inappropriately.

We welcome your views and comments and these can be added to our dedicated website:
